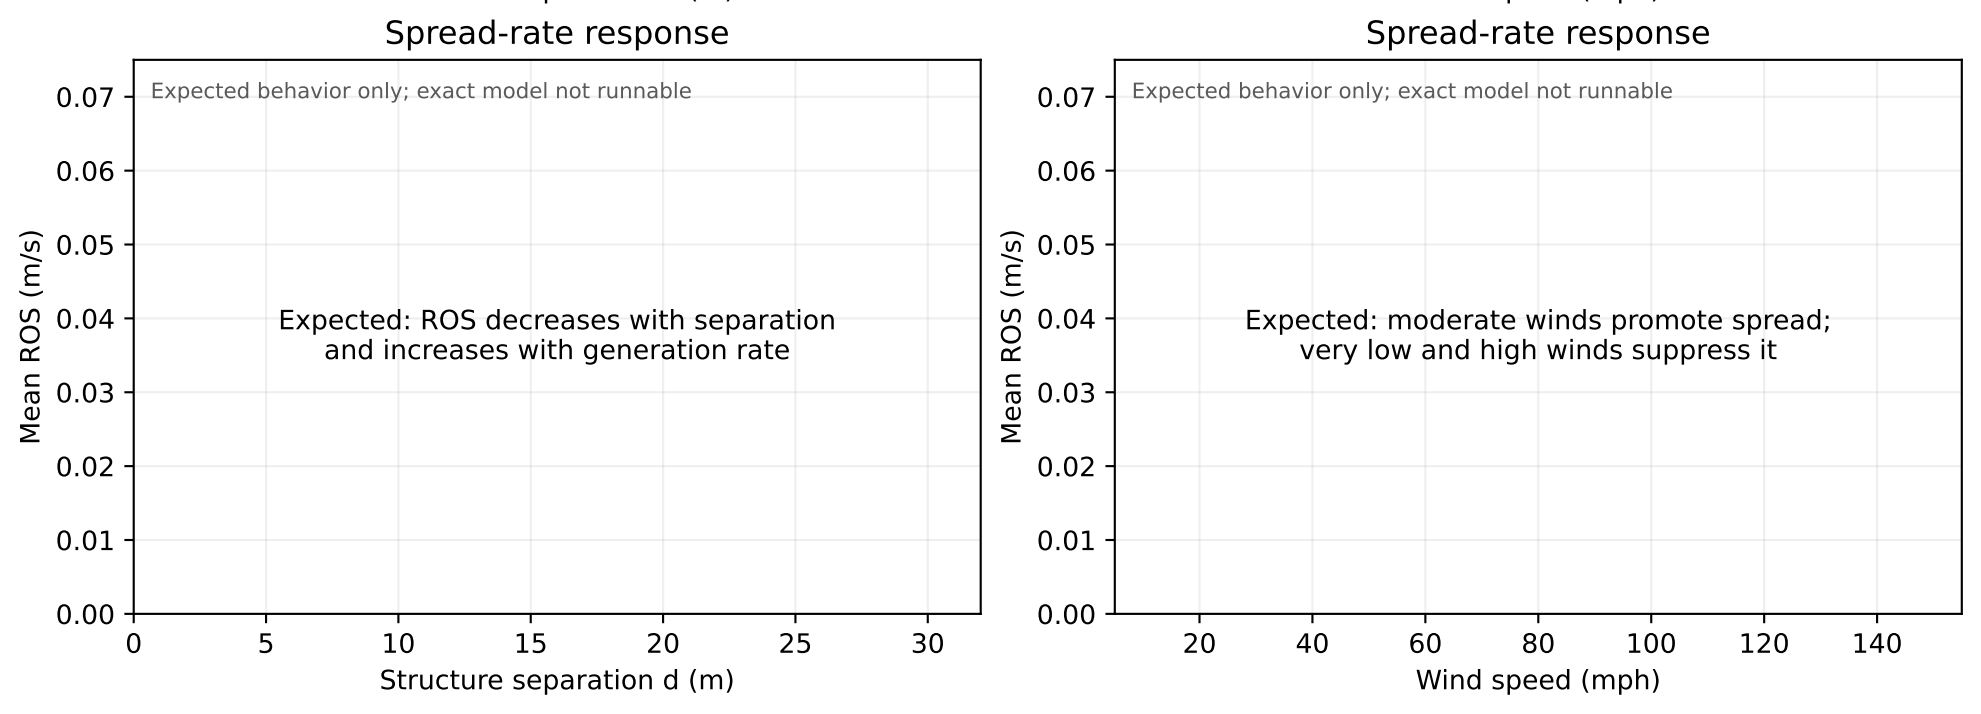
Ignition map: separation sweep
Expected behavior only; exact model not runnable
expected failure region
expected rising threshold
GR (pcs/MW/s)
Structure separation d (m)
Ignition map: wind sweep
Expected behavior only; exact model not runnable
expected U-shaped threshold
GR (pcs/MW/s)
Wind speed (mph)



Spread-rate response
Expected behavior only; exact model not runnable
Expected: ROS decreases with separation
and increases with generation rate
Mean ROS (m/s)
Structure separation d (m)
Spread-rate response
Expected behavior only; exact model not runnable
Expected: moderate winds promote spread;
very low and high winds suppress it
Mean ROS (m/s)
Wind speed (mph)
